

Stronger TOGETHER

Introducing the new Hisense PureFlat Eclipse Refrigerators

Highly expected PureFlat Eclipse refrigerators will be available in Europe and Australia from September on. They are designed to meet even the most demanding users. Because of their premium appearance with flat door design, recessed handles and high quality materials these fridge-freezers are a perfect fit for any modern kitchen.

Advanced technology behind is focused mainly on own solution for built-in ice and water dispenser with a volume of 2.2 liter. Without opening the fridge door, you can now choose between ice cubes, crushed ice or chilled water, whatever and whenever you want. Hassle-free way of getting your cold drinks. If you don't have enough room for storing drinks in the fridge compartment and you need some extra, you can convert the right part of the freezer called My Fresh Choice with temperature settings going from -18°C all the way to 5°C. Problem solved. The inside of the freezer and fridge has a special Antibacterial Guard liner which eliminates up to 99,999 % of bacteria, keeping your food fresh for a longer period of time and the inside bacteria-free, making it more clean and healthy to use.

Besides being technically advanced and reliable, it has also a lot of user-friendly features such as huge freezer drawer Extra Space on easy glide runners, height-adjustable shelves, big balcony, Multi Freshness Zone with 2 large crispers for fruit and vegetables, snack box and full-width pantry for meat, fish and dairy products.
