MAGICALLY SIMPLE. SIMPLY BEAUTIFUL.

Just as a magician produces an illusion by the sleight of his hand, so you can flambé with the greatest of ease. Everything is possible with the new collection of kitchen appliances created by the famous French designer Ora ĭto. They are simple, intuitive and integrate the best that technology has to offer. To top it all off they are visually stunning and convey a 'wow' effect – whether you choose the black or the white collection. Feel them. Touch them. Enjoy the timeless perfection of their design.

OVENS

Some flour and yeast, just the right temperature and your secret ingredient. Is it bread or is it magic?

 **HomeMade shape**
Abracadabra, perfectly baked!

Inspired by traditional wood-burning ovens, the characteristic rounded shape of Gorenje by Ora i to ovens enables hot air to move around freely. The food is heated

evenly from all sides and always perfectly done: crispy on the outside and juicy on the inside.

 **BigSpace**
Impress with your creativity

Be the illusionist in your own home with the innovatively shaped Gorenje by Ora i to ovens, which offer increased capacity while maintaining their outside dimensions. Now the optimised airflow circulates at an even greater volume, allowing you to prepare even larger quantities of food.

 **MultiFlow 360°**
You can do it all at once

You don't need magic powers to bake on five levels at the same time. Smartly positioned ventilation openings on the oven back wall together with the unique rounded shape guarantee optimal circulation of heat within the oven for simultaneous baking on many levels without smells or flavours mixing together.

PyroClean

And the oven is effortlessly clean

Pyrolytic cleaning is the simplest and most efficient way to clean an oven. The high temperature of up to 500 °C reduces all impurities to ashes, which just need to be wiped away

with a damp cloth after the oven cools off. The process is absolutely safe and leaves the oven completely clean, without a spot of grease.

DirectTouch

Perfection is a touch away

Intuitive symbols make the oven easy to use and allow freedom to set any cooking parameter according to one's personal preferences. Just the right touch and your delicious meal will be ready!

GentleClose

Let your cooking make the noise

Only a gentle push is enough and the oven door will close smoothly and silently.

COMPACT OVENS

The heat is on. A cloud of steam appears. Add spices and your magic words. The smells are magnificent!

MultiSteam 360°

Perfectly steamed every time

After the steam enters the oven cavity through multiple openings, a special fan distributes the steam evenly,

giving the food a soft and tender feel. Just one water tank will do the trick!

PureSteam

No water, just steam

Thanks to the special steam generator, a cloud of pure steam is distributed all over the oven, without any drops of water that could spoil the food, making it soggy. It is also excellent

for defrosting since warm steam evenly surrounds the food without creating hot spots.

WarmingDrawer

The beauty is in the details

Keep your food and dishware warm with the warming drawer installed under the compact oven. The pair fits perfectly into

the furniture element designed for classic built-in ovens and offers convenient and practical functionalities.

StayWarm

Keeps your cooking delicious

The magic performance took longer than expected? Don't worry, the StayWarm function will keep your food at a constant temperature of 70°C and ensure it retains its original flavour until the time is right to serve the meal.

Yoghurt

When you want a healthy choice

This automatic temperature and time setting will provide optimal conditions for you to conjure a healthy homemade yoghurt in just a couple of hours.

HOBS

Some magicians have a hat, you use pots and pans. And your magician's assistant? It will do its work flawlessly.

TouchControl

Now anyone can have the magic touch

Modern sensor technology allows clear and simple touch-control operation literally with your fingertips. The control

surface is perfectly smooth and easy to clean.

Timer

Never miss the right time

The timer ensures the hob will switch off automatically at the desired time notifying you with a sound alarm.

PowerBoost

Make the most of your time

PowerBoost provides extreme heat intensity to the pot and significantly cuts waiting time. You will boil 2 litres of water in

just under 6 minutes, giving you plenty of time to practice your magical performance.

BridgeZone

A simple plan for super-sized pots

Magically turn two separate cooking zones into one with just a simple touch. Cooking in large pots and pans has never been easier or more efficient.

MICROWAVE

The best magic doesn't take a lot of time. Just a minute or two and the show can begin.

 **TouchControl**
Everything is under your control

The microwave oven can be simply operated by touch and even locked to ensure little hands won't play with it. There are

no knobs or buttons, which gives the oven a sleek look and allows easy cleaning.

AutoMenu

The magic spell for simple cooking

A number of preset programs enables even simpler preparation of certain dishes. Just select the type of food and

enter its weight, and the oven will automatically adjust the power and cooking time accordingly.

SmartDisplay

One glance reveals everything

With the display that spans over the entire height of the microwave oven you will be able to monitor the cooking progress and track the time until your meal is prepared.

HOODS

The air is filled with anticipation. And nothing else. Now, turn on the lights!

AdaptTech

So you can focus on the show

The hood detects the level of impurities and automatically adjusts the fan speed or even stops it completely when it is

no longer needed. And you can turn all your attention to your wonderful meal.

LedLight

Set the scene with perfect lighting

LED lighting provides excellent illumination of the cooking hob and adds a touch of elegance to your kitchen. Its useful life is

thirty times as long as that of conventional light bulbs, and it saves up to ten times as much power.

P.A.S. System

Silent and efficient

The innovative parametric air suction system redirects air extraction from the central part to the outer edges of the hood.

This approach optimises energy consumption, reduces noise and makes air extraction considerably more efficient.

Timer and refresh

Always a fresh kitchen

The hood can be automatically switched off in 10, 20 or 30 minutes. The refresh function is activated every hour and

automatically starts refreshing the air for five minutes.

BO 658 ORAW

Built-in single oven

Gorenje by Ora-ito

- Colour: White
- Handle colour: Natural anodized brushed aluminium
- Control panel material: Glass
- GentleClose door hinge

Efficiency

- Multisystem oven BigSpace - **65 l**
- SuperSize baking area
- Surface of the largest baking pan: 1316 cm²
- HomeMADE® modelled on traditional wood-fired bread oven
- PerfectGrill

Control

- Electronic control
