

Retro design meets modern technology

CrispZone drawer featuring HumidityControl

Just like garden-fresh

CrispZone is one of the largest fruit and vegetables bins in the market. Low temperature and the option to adjust the humidity extend the freshness of your produce.

FreshZone drawer

Fresh as if straight from nature

The drawer with the lowest temperature in the refrigerator is ideal for storing meat, fish, fruit, and vegetables. It will preserve the food's freshness, aroma, colour, and flavour for much longer.

LedLight

Well-arranged and efficient fridge

Power saving LED lighting fixtures are highly energy-efficient, have a notably longer useful life and consume less power.

SimpleSlide shelves

For both tall and short bottles

An especially practical mechanism which allows movement of shelves up and down.

A+++

Top energy efficiency

All Gorenje refrigerators are highly energy-efficient. Excellent thermal insulation, door sealing and mechanical controls efficiently help reduce power consumption. Refrigerators with the A+++ energy efficiency rating use 60% less power than those in the A class.

Bottle shelf with fixed trap

Deep door bottle shelf

Refrigerator door has plenty of storage for the largest glass or plastic bottles. A special fence holds the items in place to prevent them from moving and becoming damaged while the door is opened or closed.

IonAir with DynamiCooling

Even temperature distribution in the refrigerator compartment

Advanced fan system with dynamic cooling evenly distributes the ionized air and equalizes the temperature throughout the entire refrigerator. Air enriched with extra negative ions mimics the natural microclimate that keeps the food fresh for longer. Moreover, any type of food can be placed on any shelf in the fridge as there are no temperature differences.

The new Gorenje Retro Special Edition fridge combines the iconic design of the 60s with the sophisticated technology of today. Not just for passionate drivers, it adds an instant touch of individual style, freedom and adventure to any kitchen, while keeping food fresh and full of vital nutrients.
